## FARMERS MARKET SHOPPING TIPS

**Know what's in season -** these fruits and veggies are often better quality AND less expensive. You can check out the Arizona Harvest Calendar online or just ask a farmer.

**Bring small bills** if you are paying in cash. Most markets accept credit cards, but small bills save you time. And more money goes to the farmer since there aren't any processing fees.

**Bring bags to carry your purchases** to cut down on waste. A cooler is also useful if you plan to eat lunch or hang out at the market.

**Try something new.** And look for what's ugly! Even if you're used to waxed apples from the supermarket, odd varieties and imperfect produce are often cheaper - and you might find a new favorite.

**Wear sunscreen and stay hydrated** by bringing your own water bottle, especially in the summer.

**BEFORE YOU GO - call, email, or go online to verify market hours and location: LetsGrowOurOwn.org**
